THANKS TENDERED PRESIDENT

Sixteen snowbound passengers and a train crew lived two days in Santa Fe on a pall of oysters. But there was a church social cook in that bunch.

All right. If the Pennsylvania won't give any more passes to lawmakers they'll travel in some other road.

The easy stages in the exit of a life insurance president:

First—"No, sir, I haven't the slightest idea of resigning. I haven't even thought of such a thing. It's absurd."

Second—Rumors that the president is much worried by the revelations before the investigating committee.

Third—Rumors that the directors have accepted his resignation.

Fourth—"Not a word of truth in it."

Fifth—Rumors that John Doe has been offered the presidency.

Sixth—"I have nothing to say."

Seventh—Sem-officially reported his resignation has been accepted.

Eighth—"I decline to be interviewed."

Ninth—Resignation officially announced.

Tenth—"I have nothing to say."

Thanks, Kind Friends.

In writing to the News, I always feel like I am writing a letter to my old friends in Huntington and Chillicothe. I never forget my former fellow citizens and thank them for the words of commendation they give me after reading my correspondence—Frankfort correspondence, Chillicothe (O.) News.

Yes, if the government owned the railroads how could public officials get any passes?

"The chief of police has made another big shanty and transferred men right and left," said Smithers, looking up from his paper.

"Of what interest is that to me?" asked Mrs. Smithers.

"Oh, possibly none, but I thought you might wish to jolly the cook with a little gossip."

A Chicago dispatch says a stenographer in that city, who is heiress to a fortune of \$1,000,000, will continue to work and will not buy an automobile or make a trip to Paris. Have our doubts about her being a stenographer.

Miss Hazzabo: I don't believe I know what the rule of three is.

Cummins Knightly: It's the one he works every time I come here. Why don't he go to bed earlier?

"That man," said the turnkey to the visitors, "is a safe robber. He's here for robbing a newspaper."

Then why do you call him a safe robber?

All robbers are safe when they're in here.

THE "APACHE KID"

IN THE MOGOLLONS

PROSPECTORS COMING INTO CLIFTON REPORT OF HIS MOVEMENTS

E. U. Beauchamp, who recently returned to Clifton, Ariz., from Mogollons, where he spent many weeks hunting and prospecting, states that there is no doubt that the noted Apache Kid and his squaw and child are living in the wilds of the Mogollon mountains of New Mexico, and have been for some years past, says the El Paso News. It will be remembered that the Kid disappeared some years ago from southern Arizona and Sonora, where he committed many depredations.

It has been known for some time that there were Indians in the Mogollon, but their depredations have been confined mostly to the killing of cattle, although on one or two occasions citizens were fired on, and one man was wounded. When Mr. Beauchamp was in that section last summer two of his horses were stolen, and he was then satisfied that they were taken by Indians, as there were Indian signs all through the mountains. That he was correct in this supposition was demonstrated by more recent events. After Mr. Beauchamp left there last summer he was informed that one of his horses had been recovered, and on his recent trip he learned the particulars of its recovery. It seems that some cowboys who were back in the mountains ran into the Kid's camp, but fortunately the Kid was not at home. Mrs. Kid and Kid Junior beat a hasty retreat, and were not pursued. In the camp was found one of Mr. Beauchamp's horses, a pair of officer's field glasses and a fine modish rifle, but no cartridges. Everything in the camp was taken and conveyed to the homes, and that very night the Kid and his squaw returned the camp. They liberated all the horses in the camp and took away two of the best of them.

The reason the people are so sure the Kid is in the country is because of the extraordinary large leases he leaves. It is known that the Kid has the largest fool of any man on the reservation. The Kid could be had if the government wanted him very bad, but it would take a regiment of soldiers to get him.

Prominent mining men from Searchlight, Nevada, are at Salt Lake City for the purpose of incorporating the Searchlight & Northern railroad. It will run from Nipton, California, on the Salt Lake route, to Searchlight. The capital stock is \$500,000. Homer Hanson is president, W. J. Harrington, vice president and G. H. McElroy, secretary and treasurer. The work will begin at once.

At a regular meeting of the city council of Silver City, held Monday night, the following resolutions regarding statehood for the territories of New Mexico and Arizona, and also looking to the payment of railroad bond indebtedness, were passed:

Be It Resolved, By the council of the town of Silver City, in the county of Grant and Territory of New Mexico:

That, whereas, a bill is now pending in the house of representatives of the congress of the United States providing, among other things, for the admission of the territories of New Mexico and Arizona into the union as one state, and, whereas, the town of Silver City, N. M., and several of the counties of said two territories are burdened with an indebtedness, known as the railroad aid bonded indebtedness of such town and of such counties, aggregating about \$5,000,000, which has been validated by act of the congress of the United States;

Now, therefore, be it resolved, by this council that said house of representatives be asked and said body is hereby asked and requested to so amend said bill that fro each dollar of said railroad aid bonded indebtedness created in said town and in the counties of the territory of New Mexico, there be donated and granted to the state to be established out of said territories as provided in said bill, for the payment of said indebtedness so created in the territory of New Mexico, one acre of land to be selected in such manner as may be provided in such amendment, from the public lands of the United States lying in said territory of New Mexico and unappropriated; and for each dollar of such indebtedness created in the counties of the territory of Arizona there be donated and granted to such state, for the payment of said indebtedness so created in said territory of Arizona, one acre of the like public lands lying within the boundaries of said territory of Arizona; and should any of said lands, or any moiety derived from the sale thereof, remain undisposed of after the payment of said indebtedness, that the same be turned into the common schools of said state.

Be it resolved, by the council of the town of Silver City, New Mexico, in regular session assembled:

That this council hereby tender the thanks of the people of Silver City to the president of the United States for the recommendations contained in his message to the present congress, that the territories of New Mexico and Arizona be admitted into the union as one state; and we respectfully petition congress to pass the necessary legislation to that end; we ask this at the hands of the congress now in session, feeling that our cause is reasonable and right and that, in the words of the president, "There is no justification for further delay."

Be it further resolved, that in the opinion of the members of this council our people are overwhelmingly in favor of such legislation and are entitled to the privilege of expressing their will upon the question at the polls.

It is further resolved, that a copy of these resolutions be sent to the president of the United States, the presiding officers of both houses of congress and the chairman of the committees on territories of the senate and the house of representatives.

THE SEVEN WIGS OF ENGLAND'S QUEEN

HOW ALEXANDRA SUCCEEDS, AT 61, IN KEEPING HER HAIR ALWAYS BROWN—A YOUNG LOOKING OLD WOMAN.

Special Correspondence.

Kansas City, Mo., Dec. 11.—The receipts of cattle last week were larger than expected, being nearly 60,000 head, and the market on range cattle held about steady, stockers and feeders closing the week higher.

Some high class yearlings sold at \$4.00 to \$4.15, and choice Colorado yearlings sold at \$4.

A feature of the market was the strength maintained by country grades in the face of lower prices for fed steers. However, packers were heavy buyers of fat steers all week, and were willing to take more, as shown by the strong close of the week on fed steers on account of smaller receipts on Thursday and Friday. Killing steers from the range sold at \$2.25 to \$2.75, while country grades sold around \$2.50, except for the choice yearlings mentioned above.

Cows sold at \$2.50 to \$2.90, with some choice Colorado cows at \$3.10; heifers at \$2.00; calves at \$2 to \$2.25.

The cattle supply today is again liberal at 15,000 head and the market is merely steady on fat grades while stockers and feeders are strong and active. Some of the heavy feeders have stayed out this far this fall, small operators taking the bulk of the stuff, but the big men begin to think that they have made a mistake, and many of them are trying to complete arrangements for putting something on feed for the spring or summer market. This has made a strong stocker and feeder market for the last two or three weeks, and indicated that the general feeling in the country is favorable for early fall cattle markets is optimistic.

QUEEN ALEXANDRA

London, Dec. 12.—Although Queen Alexandra, queen of Great Britain and empress of India, has just celebrated her 61st birthday anniversary, she is one in an exact reproduction of the Queen of England is the mother of six children and the grandmother of nine, and is besides the corner of the house, and was born on but one day to — a week. One wig of the Queen is always on its way to Paris to be resurfaced, and crosses another on its way to London.

The face of Queen Alexandra is as carefully tended as her hair is brown. The skin appears as smooth and pink and white as a baby's. There is not a mark of care or worry upon it.
